April fool ends at 12:00

Re: comp.lang.c Answers to Frequently Asked Questions (FAQ List)

guys.

Since when? Doesn't on the continent, where we invented it.

it does on my bit of the continent

You're not the continent, you're the colonials.

Anyways, April fools were celebrated on this continent well before any of your colonial countries were founded; arguably before the continents were discovered by Westerners.

the last time my bit of the continent was colonised was over a thousand years ago...

Hmmm, this probably depends on your definition of "colonised" and "my bit", considering how many settlers buzzed through Europe even after the Americas have been rediscovered the last time.

Cheers  
Michael
