Hi Dears,

I am student of 1st year computer science i have covered following topics ,

FOR, WHILE, DO WHILE LOOPS, IF, IF-ELSE, SWITCH, FUNCTIONS, ARRAY, STRINGS AND POINTERS.

Our teacher tell us to make a program of your choice which have 25 marks , plz tell me what program I design which is different from others and gets me 25 marks .

Plz send me output of your idea .

Make a calculator that can handle 1000 digits and all 4 (*,/,+,-) operations to start with.

Or make something else! If you're a first-year student, then I'm sure your teachers expect you to be able to think about something yourself. It can't be hard to get ideas...

Best regards / Med venlig hilsen
Martin Jørgensen
