> *Where can I find a C++ grammar parser?*

Are the following links useful for you?

1. "OpenC++ is a C++ frontend library (lexer+parser+DOM/MOP) and source-to-source translator"

<http://opencxx.sourceforge.net/>

2. "Synopsis is a general source code documentation tool"

<http://synopsis.fresco.org/>

3. Keystone: A parser and front-end for ISO C++

<http://keystone.sourceforge.net/>

4. "Meta-Compilation for C++ transformation and filtering of a superset to the target language" by Edward D. Willink

<http://www.computing.surrey.ac.uk/research/dsrg/fog/>

5. "Parsing C++" by Andrew Birkett

<http://www.nobugs.org/developer/parsingcpp/>

Regards,

Markus
