Hi!

I am using Delphi i2005 Win32 to access a MySQL 5.0.12 Database. I want to use ADO and not ODBC. But I could not find an OLE DB Provider for MySQL. Some googling pointed me to <http://dev.mysql.com/downloads/> but there is no OLE DB provider for use with ADO.

I am not using ADO.NET.

Does anybody know where I can download an OLE DB Provider for MySQL 5?

Thanks!

Fred
