Wayne Niddery [TeamB] wrote:

But this doesn't really make any sense – as long as they are able to negotiate an agreeable *price*, there is no reason or value to insist on *not* taking any particular piece of the package. I.e, the pieces they "don't want" are effectively being thrown in for free. They can subsequently deal with them as they believe necessary.

Not to mention the complexity from their already coexisting in the same IDE.
