You only feel that way because you yourself are biased towards Firebird (big time), not because I am biased.

Actually dont, firebird is not the only technology i use, otoh i use it a lot. Same for Linux, is ONE option but never will be my ONLY option. I must be suicide to think some like that.

So, im not biased by Firebird, i dont wanna make thing to nobody Firebird is the best. Dont care. I think theres always a righth tool for ever hand.

Feel the difference?

And now, really, tired of that post so EOM for me.
