somebody wrote:

Google "delphi" returns 75 million hits, "delphi -greece" returns 3.5 million (OK maybe Delphi language is popular in Greece and this penalizes it unfairly), and that's including the auto parts maker and many other similarly named but unrelated companies, articles.

Try "Delphi Greece" – 238 000 hits.
Where is another $75 - 3.5 = 71.5$ mln hits?
