Hi everyone,

Two new releases in 4 days :) )

Firstly, the Multimedia and Business Icon Sets have been fully revised and updated, to include the brand new 32bit PNG and 24/32bit ICO versions. All registered users should have already received an email with instructions on how to download the updates.

With the update, we have also release the Large Editions of both sets - these contain the following;

- \* 32x32, 48x48 and 64x64 pixel versions
- \* 24bit BMP
- \* 32bit PNG
- \* 24/32bit ICO
- \* 8bit GIF
- \* Normal, hot & disabled states

You can purchase both sets as either Small or Large Edition, or in a money saving Combo Pack. Purchase through one of our partners and you will save even more :) )

For details of whats included in each set, please go to;

<http://www.glyfx.com>

If you have any questions, please don't hesitate to contact me.
