- 

VCLZip 3.10 Build 1 is available for download. The main improvements in this version are:

1. Several bug fixes.
2. Uses latest version of ZLib 1.2.3
3. Improved memory performance when working with archives containing huge amounts of files.
4. Now works with all versions of Delphi 4 through 2007, and BCB 4 through 2007.

There is no charge for currently registered users of VCLZip Pro.

You can download this version from the same download page that you downloaded the previous version from, except the filename that you will download is now src31032.zip. The password is also the same.

Note that the url for VCLZip's home page has changed from [www.vclzip.net](http://www.vclzip.net) to

<http://www.vclzip.com>.

You can also check out the VCLZip Forum for more information at:

<http://vclzip.proboards7.com>

Version 4 (VCLZip Pro with Strong Encryption) is expected to be released around the end of the year.

Please let me know (by email or on the forum) if you find any problems or feedback.

Thanks!!!

Kevin
