The official version is just scanned txt.

I would recommend the latest draft of the fortran 95 standard:

<http://j3-fortran.org/doc/year/97/97-007r2/pdf/97-007r2.pdf>

which is very similar to the official one but text based (and thus nicer to use). The latest standard (Fortran2003) even has convenient links in the pdf (at least the draft, don't know about the official one).

Joost
