Lee Graba <leegraba@xxxxxxxx> writes:

Also, when log messages don't show up in the JTextArea, it isn't always the last one. Sometimes one is missing, but a later log message does show up. It seems to be dropping some of the messages that are appended.

This sounds like it might be a threading issue, despite the fact that append is supposed to be thread safe.

Do the "dropped" messages ever appear later, out of order?
Do they appear as expected if you also write them, say to System.out?
