I have both jdk1.6.0 and jdk1.6.0_04 on my PC. Can I remove jdk1.6.0 and not affect any programs on my PC?

see <http://mindprod.com/jgloss/jdk.html#UPGRADING>

If you have links to it is your SET, bat files or IDE, you will have to update them. You don't need any but the latest JDK.
