Hi

Question 1: Whats the difference from Java 2 SE (Standard Edition) and Java 2 EE (Enterprise Edition)? The download for the latter is much bigger.

Question: I am looking for a tutorial on using linkedlist (Java2 SE implementation). I don't want to know how to implement my own linked list – done that before– just want to know how to use the SE implementation of it. Tried google and Javadoc but no good. Can someone point me to a useful online reference?

Thanks all
